About Me

2022-2026

S.R.M Instituteof Science and Technology

I am Sudipta Bag, a passionate and aspiring Full Stack Web Developer with a strong background in C++ programming. Currently studying at SRM Institute of Science and Technology, I am dedicated to honing my coding skills and actively contributing to the tech world. My hands-on experience in web development and my thirst for knowledge make me a budding coder eager to take on new challenges and deliver innovative solutions. With a commitment to continuous learning and a drive for excellence, I am determined to make a positive impact in the world of technology.

Experience

2022 - present

Hostel database system and website

As a driven Full Stack Web Developer with proficiency in C++ programming, I successfully created a Hostel Database Website catering to the specific needs of hostel management. Through the implementation of secure login functionality, the website allows wardens to access and manage student records efficiently. The platform provides comprehensive details, including check-in/out times, gender, and other pertinent information. With a focus on data privacy and user-friendliness, I contributed to building an organized and secure environment for hostel residents.

NSPE Member

Joined National Society For Professional Engineers.

Project

As a dedicated and collaborative Full Stack Web Developer, I successfully led a team project to create a comprehensive Cricket Website, featuring a Wikipedia-style database of cricketers, live chat functionality, real-time cricket scores, and an ICC corner for live cricket news. Through effective teamwork and technical expertise, we developed a user-friendly platform catering to cricket enthusiasts, providing them with an engaging and informative experience.
